# Parts of a Plant

Name:_____

Parts of a Plant

The _____ makes the seeds for new plants to grow.
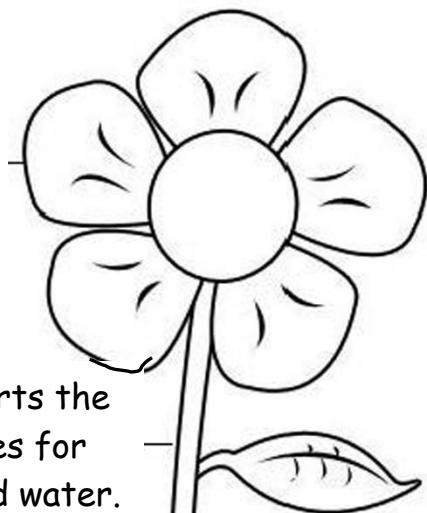

The _____ supports the plant. It contains thin tubes for carrying food, minerals, and water.

The _____ make food for the plant by using sunlight. They take in carbon dioxide and release oxygen into the air.

The _____ soak up water and minerals. They also store food for the plant.

Go into your habitat lab. Find 2 **different** plants with flowers on them. Draw pictures of them, and label their parts.

Plant #1	Plant #2
